

**Jubilee House is a twelve-month recovery program for women choosing to learn the tools to walk in recovery and become active productive members of their families, communities and society. Our program is available for court-ordered women as well as women in the community that are not legally entangled. A twelve month commitment is required.**

**Although our program's main focus is on substance abuse issues, our desire is to enable healing and recovery in every area of life. We offer classes to our residents on finances, parenting, co-dependency, and healthy boundaries as well as many others. Bible study and volunteering in the community are a large part of our curriculum as well. As the women get stronger and healthier, we offer a computer-learning center with GED programs and career skills. Weekly counseling with a licensed drug and alcohol counselor, relapse prevention counselor as well as outside recovery programs are mandatory parts of each woman's recovery.**

**We are a limited access facility, visitation and phone calls are limited. We are NOT a transitional house. Women are supervised 24/7 and are not allowed to come and go at will. After the third phase of the program is completed, usually in about nine months, each woman is assisted in securing employment. This helps to build a healthy sense of self worth and is an important aspect of their transition into the community. To further prepare them to become contributing and vital members of society, we work with each woman to build strong support groups with mentoring programs and involvement in local churches. We offer our services at no charge to the women who choose to commit to their recovery. We receive no state, federal or insurance funding. We are supported by individual donors, local churches, civic organizations and private foundations. We also utilize volunteers in all areas of our ministry.**

**This is a brief overview of our program and is in no way a complete list of classes and opportunities we offer at Jubilee House.**
